

SQUEEZE-N-GO™

FLOOR SAFETY BURNISHING GEL

Key Questions & Answers

What follows are the answers to the most often asked questions about Squeeze-N-Go™ Resistant Floor Cleaner & Treatment.

1. WHAT IS SQUEEZE-N-GO™?

ANSWER: Squeeze-N-Go™ is an Underwriters Laboratories® Floor Safety Treatment in a convenient thickened gel from which is used for raising the safety level (increasing the slip resistance) of the floor while enhancing the stone floor appearance or while restoring the gloss and extending finish life of acrylic floor finishes. Squeeze-N-Go™ is also excellent for use over marble and polished granite floors.

2. WHERE IS SQUEEZE-N-GO™ USED?

ANSWER: Squeeze-N-Go™ is commonly used with high speed floor burnishers to treat floor areas in schools, stores, and offices. Squeeze-N-Go™ eliminates the application and drying time needed for mop on and buff in restorers. It is effective when personnel or time limitations do not allow conventional restorer applications. Squeeze-N-Go™ is an excellent safety treatment over polished marble and granite floors.

3. DO I NEED A SPECIAL FLOOR FINISH WITH SQUEEZE-N-GO™?

ANSWER: No. Squeeze-N-Go™ is designed to be used over stone floors and as a compliment to an existing floor finish program. Special finish, treatments, cleaners or polishing compounds are not required to achieve safer, beautiful looking floors.

4. WHAT COVERAGE WILL I GET WITH SQUEEZE-N-GO™?

ANSWER: Squeeze-N-Go™ is more economical than many of the restoring or burnishing products in the market place. When used as directed one case (6-16 oz squeeze bottles) of Squeeze-N-Go™ will burnish over 600,000 square feet of smooth floor finish surface.

5. WHAT IS THE RECOMMENDED APPLICATION PROCEDURE FOR USING SQUEEZE-N-GO™?

ANSWER: Dry mop floor prior to application of Squeeze-N-Go™. Heavier soiled areas, such as building entry areas, should be wet/damp mopped with a good neutral floor cleaner to remove dirt and particles that are detrimental to the long life of the floor finish.

6. HOW RESISTANT TO SCUFF MARKS IS SQUEEZE-N-GO™?

ANSWER: Squeeze-N-Go™ is harder than most of the floor finishes that are commonly used today and is very resistant to scuff marks and soiling.

7. DOES SQUEEZE-N-GO™ CONTAIN ZINC OR OTHER HEAVY METALS?

ANSWER: No. Squeeze-N-Go™ contains no zinc or other heavy metals and is an environmentally friendly product for use in those states, companies, or communities with heavy metal discharge concerns or limitations.
